Robert Watters, Ph. D.
President & CEO
Watters Environmental Group Inc.
9135 Keele Street, Unit A1s
Concord, Ontario

Robert,
Now more than ever, our charities are facing enormous challenges and operational deficits and need our help. For this reason, we have established **The Cannington Group's Give-Back Initiative**.

The Cannington Group Give-Back Initiative will provide desperately needed capital to the charitable causes that our key Business Partners support. The Cannington Group will donate a percentage of its profits from the environmental projects we complete with Watters Environmental Group Inc. back as a charitable donation to WATERSTARR. This will expand our footprint and impact to those who need funding so they can complete their important work.

Through this initiative, The Cannington Group will continue to provide the best environmental contracting services but with an additional benefit!

I believe together, The Cannington Group and Watters Environmental can provide the much-needed financial support for WATERSTARR so it may continue to further its mission of "Hope for the Planet".

Please contact us directly to see how best we can structure a win-win-win scenario for this amazing cause!

Sincerely,

David McCrossan
President
